System Requirements:	2
New Features/Enhancements:	2
Platform:	2
Unified Client:	2
KwikTag Client:	2
Resolved Issues History:	3

System Requirements:

KwikTag T3 is compatible with Hyper-V or VMWare for virtual installations and requires a Windows Server 2008 R2 retail, OEM, or volume license. If you buy hardware from KwikTag, a Windows Server 2008 R2 standard, enterprise, and data center license is required. The minimum required resolution is 1024 x 768 and the recommended resolution is 1920 x 1080.

KwikTag currently supports the following versions of Microsoft Dynamics ERP solutions:

- Microsoft Dynamics GP 10, GP2010 and R2
- Microsoft Dynamics NAV 5 SPI, 2009R2 Classic and RTC SPI (Support for NAV 5 does not support KwikTag Client workflow capabilities due to the lack of Navision Web Services in NAV 5)
- Microsoft Dynamics AX 2009 and AX2012

KwikTag currently supports the following Microsoft Office and SharePoint versions:

- Microsoft Office Suite 2007 and 2010
- Microsoft Office SharePoint Server 2007 and 2010 MOSS
- Microsoft Office 365 is supported for dragging and dropping of email and Office documents. The KwikTag SharePoint Connector, however, does not have a defined and secure network connection path to hosted SharePoint servers in Microsoft data centers.

New Features/Enhancements:

Platform:

SF Case Number: 32705/EZ-618: Add authentication for outgoing SMTP server

(Applicable to = KwikTag Client)

Added authentication for outgoing SMTP server

Unified Client:

EZ-5: Add a refresh to the document page

Added a refresh button to the document page on the unified client view.

SF Case Number: 32501/CURR-891: Filter out inactive GL codes in GP sync service.

The GP sync service has been updated to filter out inactive GL codes

KwikTag Client:

EZ-275: Upload Page – Allow entry of barcode

Allow the user to edit the barcode assigned to an uploaded document which will support versioning.

EZ-602: Show actual page count in documents grid

In the documents page, show the actual page count next to the expected page count in the documents grid.

SF Case Number: 32284/EZ-607: Tab through all fields

Allow tabbing through all fields including the tag field in the web client.

EZ-608: Display Workflow History on Work Queue

The workflow history display option has been added to the right click menu of the work queue display.

CURR-612: Case View – Display a header on the smaller document windows

Show the document type in the header of the smaller document windows on the case view.

CURR-653: Case View – Filter by status

Allow the case view to be filtered by status; pending, new, closed, etc.

CURR-871: Option to remove an email address

An option to remove an email address from the “email this document to” box has been added.

SF Case Number: 32770/CURR-946: Ability to export documents from a drawer with external export manager application

(Applicable to = External Report Manager)

Added the option to export documents and metadata from a drawer with an external export manager application

SF Case Number: 32284/CURR-821: Tab through all fields

(Applicable to = KwikTag Client)

Added tabbing through all indexing fields.

SF Case Number: 32068/CURR-795: Show document at the top of the drawer when moved

(Applicable to = KwikTag Client)

A moved document will show on the top of the documents list in the drawer where the document was moved to.

EZ-735: Change “Document Associations” header to “Associations at a Glance”

The document associations’ header has been changed to associations at a glance.

Resolved Issues History:

SF Case Number: 32181/EZ-132: Always on floating menu shows stop workflow

(Applicable to = KwikTag Client)

The always on floating menu shows the stop workflow option even when a user is not a member of workflow admins.

SF Case Number: 32772/CURR-830: Document upload shows Word icon instead of an email icon

(Applicable to = KwikTag Client)

The upload feature displayed the Word icon when uploading a MSG file.

SF Case Number: 30579/EZ-615: Workflow comments display on work queue

(Applicable to = KwikTag Client)

The workflow comments are cut off when multiple comments are present.

SF Case Number: 31472/EZ-622: Red X displayed on document view

(Applicable to = KwikTag Client)

A red X is displayed while trying to view some documents in the KwikTag client.

SF Case Number: 32396/EZ-624: No error generated when dollar sign added to currency field

(Applicable to = KwikTag Client)

No error was generated when a dollar sign was added to a currency field.

SF Case Number: 32793/CURR-897: GL distribution shows differently

(Applicable to = KwikTag Client)

The GL distribution shows differently in the lookup and the inline view.

SF Case Number: 32945/CURR-938: Workflow history on workflow reports

(Applicable to = KwikTag Client)

Display the workflow history on the approved, in progress, and rejected workflow reports.

SF Case Number: 32731/EZ-750: Tag button not functioning in GP work queue

(Applicable to = Unified Client)

The tag button was not functioning in the GP work queue when there were more than 15 items in the work queue.

SF Case Number: 32542/EZ-754: Barcode reading issue

(Applicable to = Platform)

The barcode read rate was inconsistent for some documents.

SF Case Number: 32949/EZ-755: Date format consistencies

(Applicable to = KwikTag Client)

Date fields were showing with inconsistent format upon upgrade from R2.

SF Case Number: 32952/EZ-756: Inline document preview does not scale in reports view

(Applicable to = KwikTag Client)

The inline document preview pane does not scale when the pane is widened on the reports page
