

KwikTag v4.0.8 Release Notes

The following Release notes cover the KwikTag core components as well as Office DoKs and KwikTag for Great Plains components. You should not install this release if you are currently using Active Directory Synchronization.

Client Requirements

- ❑ Internet Explorer 7.0
- ❑ Windows XP Professional, Vista Business
- ❑ Microsoft Office 2003, Office 2007

New Features

Feature # 5654: Web User Client

Feature # 5670: Mapping Tool

Resolved Issues History

Bug #5601

Issue: Webadmin – Unable to edit the location with the name 'Service Call Entry/Update'

Bug #5588

Issue: Webadmin – The description of 'update' and 'import' on the Mappings page is the same

Bug #5586

Issue: Webadmin – The update functionality of the Mappings page is not functional

Bug #5585

Issue: Webadmin – The import feature of the Mappings page does not import all locations and attributes of a configuration

Bug #5576

Issue: Great Plains connector – Unable to see the additional menus on an appliance with existing data

Bug #5565

Issue: Changing administrator's password gives incorrect error message

Bug #5382

Issue: Web admin license page - Clicking the 'Deactivate' link for the KwikTag Power User client removes the link completely

Bug #5372

Issue: Order of Creation of User/Group permission interferes with display of Additional menus in GP

Bug #5353

Issue: GP Auto Update→ An invalid message is displayed when GP is launched and the KwikTag server is turned off. Cannot log in to Great Plains client if the KwikTag server is offline.

Bug #5074

Issue: Global Search – When any 'Within' option is selected (excluding 'Date Range'), changing the option in the 'By System Field' dropdown the date field remains enabled

Bug #5070

Issue: Global Search – Clicking 'find' clears the values in the 'From' and 'To' date fields

Bug #4993

Issue: Web User Client – Clicking on 'My New Documents' (when browsing drawers) displays the old user experience

Bug #4619

Issue: SharePoint Connector – When a connector-only installation is done the KwikTag metadata does not carry over into the SharePoint Document Library

Known Issues

Bug #5788

Issue: Sharepoint Connector – Document data not getting reflected in SP for Receivables Transaction Entry, Purchasing Entry, Purchasing Rec Trans Entry

Workaround: Make the 'Vendor Id' field optional in Sharepoint for the Purchasing Order Entry, Purchasing Rec Trans Entry and Payables Transaction Entry. Also make the 'Number' field optional for Receivables Transaction Entry

Bug #5630

Issue: Office DoKs – Sometimes a local administrator must first use 'Send To KwikTag' from Office or Windows Explorer before a non-administrator user can use that feature
